WHOLESALE 1954

Greetings to Friends Old and New:

For gay color and a riot of bloom there is nothing to wind up the gardening season like the hardy chrysanthemum. The taller ones make excellent cut flowers, and all make fine garden subjects. Every year finds more people looking for garden mums, and a good selection of them will dress up your nursery in the late summer and fall and bring you interested customers. Day-lilies and Siberian Iris are also becoming increasingly popular for gardens, and we can supply a good selection of both. Echinops Taplow Blue is not only a grand garden plant, but also a lovely summer cut flower.

We have added a number of fine varieties to our list this year. Our field divisions are from plants carefully watched and rogued through the bloom season for anything not true to name or up to standard in appearance. We strive to send out healthy, true-to-name divisions, also to rectify, so far as possible, any errors.

TERMS: Cash, or 50% cash, balance C.O.D. Minimum order \$3.00. No charge for packing. Plants shipped by express collect. Small orders can be shipped by parcel post if postage is included; any amount in excess will be refunded. You may order 25 of one variety at the 100 rate.

Prices are for strong, outdoor grown rooted divisions. All stock offered subject to prior sale, and crop conditions. Shipping will start as soon as weather permits. Orders will be shipped in rotation, as near as possible to the time wanted.

The first letter after the name denotes the type of flower: D, double; SD, semi-double; S, single. The second letter pertains to approximate bloom season: E, before Oct. 1; M, Oct. 1 to Oct. 15; L, Oct. 15 on; VE, early September or late August.

# *Garden Chrysanthemums*

	Per 10	Per 100
ADMIRAL, D-ML. Tall lovely deep rose-red	\$1.50	\$10.00

## D W A R F I R I S

We have several thousand surplus in a good many varieties to sell by color or mixed. \$8.00 per 100

## E C H I N O P S

ECHINOPS TAPLOW BLUE--This is an outstanding globe thistle. Globes are larger and of a blue much deeper in color than the ordinary echinops ritro. It blooms on stalks about 3½ feet tall in July, and if cut back when through blooming, it will bloom again in September on shorter stems. Very effective in the garden and a long-lasting cut flower. Strong divisions from the field, 3 for \$1; 10 for \$2.50; 100 for \$20.00.
